

Mentors lead to opportunities. Where will they lead you?

A mentor can play a vital role in supporting a protégée with the skills she needs to develop her STEM or skilled trades career.

Program details include:

- A free 6-month program where Protégées meet with Mentors in their desired industry;
- One-on-one monthly check-ins between Protégées and Mentors; and,
- An exclusive networking group for participants to join after completing the program.

If you are:

- A Canadian woman with 1+ years of professional experience who is searching for career opportunities and advancement in STEM or skilled trades;
- Committed to professional growth; and,
- Looking to expand your network and engage with industry professionals,

If you are:

- A Canadian industry professional—all genders welcome—with 5+ years of STEM or skilled trades experience;
- A motivated individual who wants to help others succeed; and,
- Looking to share your knowledge and experience with a Protégée who wants to excel in her career,
