### **Why Alliance Creative Marketing:**

We provide full service to customers: this includes an experienced promotional product expert who will work with you personally on your request and select the right products for your events.

Our graphic designer provides logo prep and design help on every item we sell – you don't need to do the work yourself – we'll do it for you!

Whether you'd just like your logo on a product, or you'd like to add text, additional graphics or you need a complete logo created – we'll do the work, FREE! And you'll always get a FREE 'e-proof' or pre-production sample before we proceed with your order!

You will receive personal, expert service on every order. We bring the products to your office for your review and selection. Thus you know exactly the materials and quality of them. At the same time, you could decide where to put your logo. There is no surprise when the products are delivered.

We offer custom, creative gifts and apparel with competitive prices. With a strong network of factories located in Canada and overseas, we constantly develop products that cater toward the daily needs of our customers.
