

**Concrete Ontario**  
1 Prologis Blvd. #102B  
Mississauga, ON L5W 0G2

**Company History:**

Concrete Ontario (legally Ready Mixed Concrete Association of Ontario) was formed in 1959 to act in the best interest of Ontario's ready mixed concrete producers and the industry in general. It is fully funded by the membership (Active and Associate) and provides a broad range of services designed to benefit its members and the industry in general.

Concrete Ontario provides a world class plant certification to all its members. The Association is active in a number of areas of the industry including new concrete and admixture technologies, education and training of our clients, environmental stewardship and ongoing partnerships with many industry partners.

Concrete Ontario is the voice and resource of the concrete and construction industries across Ontario. Representing over 96% of all concrete production and manufacturing, Concrete Ontario continually promotes concrete's sustainable advantages and benefits to society. Concrete Ontario brings education, technologies, research and innovation to architects, designers, contractors and concrete companies.

**Vision:**

Ready mixed concrete to be the preferred construction material.

**Mission:**

To provide leadership and advocacy in business and markets, environmental and safety practices for the advancement of our industry.

**Projects Completed in Conjunction with OGCA:**

- Best Practices Guidelines for Concrete Construction
- Supporter of the OGCA Construction Symposium
- Member of the Associate Partner Program
