SiteDocs Safety Management Software

SiteDocs
PAPERLESS SAFETY MANAGEMENT

Workplace health and safety just got a whole lot easier

Introducing SiteDocs Paperless Safety Management Software.

Featuring a user friendly mobile app for workers on site, and a powerful web based administrative tool for safety managers.

SiteDocs makes every part of your health and safety program **easier, faster,** and **better**, and the best part is that you never have to touch a piece of paper again.

Getting COR certified? SiteDocs makes it easy to find all of your supporting documentation in a few clicks.

Since 2012, we've collected over 2 million signatures and helped over 600 companies **save time and money** by going paperless with their safety programs.

Learn how you can go paperless and book your demo today at www.SiteDocs.com.

"I used to spend 5-6 tedious hours reviewing paperwork and completing my monthly tracker report. By going paperless with SiteDocs and using their Safety Inbox, I've been able to review my documents and create my report in less than an hour."

Marissa Igoe
Operations Coordinator, **SmartWatt**

"Proof is in the pudding, we have aced 3 major audits: one with the Province of Manitoba, one with COR and another with OHSAS 18001. With SiteDocs, these were a breeze as all required information was instantly at the auditor's fingertips."

John Evinger CRSP
HSE Manager, **Voltage Power Ltd.**
