

**LIVE** **March 20, 2024**  
8am-9:30am USA Eastern Time  
8pm-9:30pm USA Eastern Time

## You're Invited!

As partnering closely with eye care professionals and students from around the world is essential to our mission and commitment to innovation and education, we'd like to personally invite you to the Global Vision Summit, a virtual, interactive experience focused on providing evidence-based clinical pearls to help elevate success and debunk common contact lens myths identified from a large-scale survey conducted in six major markets.

The event will take place on March 20, 2024. Attendees from around the globe will learn from renowned industry experts as they discuss these myths, the evidence base that debunks them, and how these findings help us better meet patient needs. Attendees will also get a first-hand look at the pioneering science that drives the Vision Team's product innovation.
