

Potential topics could include:

- Bucket wheel excavators
- Tunnel boring machines
- NASA crawlers
- Nuclear-powered icebreakers
- Transport aircraft
- Huge hydraulic presses

Less facts and data, more colourful commentary about what makes the machines fascinating.

The show is being produced by Go Button Media, a boutique production company based out of Toronto, for education and entertainment purposes.

Filming will take place in mid-May, in Barrie, for a half day or a full day, depending on the level of contribution. Participants will receive an honorarium, and travel costs will be covered.
