

The Symposium provided an important connection between all levels of the Damage Prevention industry, including leaders, key decision makers and front-line personnel. Delegates were encouraged to engage with all speakers, and with other attendees, to create dialogue on the issues that are driving the industry.

A special thank you goes out to all annual and event sponsors, speakers, exhibitors, the Education and Communication committee, all volunteers and ORCGA staff who have contributed their time and energy into making this year's Symposium a success.

Thank you to all delegates for taking the time to attend this year's Symposium that focused on propelling our industry forward to continue to pursue zero damages, to enhance public and worker safety, and to lead Ontario to be the safest jurisdiction with the most reliable infrastructure in Canada.
