

Join us for a free webinar on September 10th **Utility Process Management for Infrastructure Projects:**

We'll cover utility issues that need to be managed effectively by Project Owners, Program managers, Project Managers, and alternative delivery teams. We'll also showcase technology and review processes developed from research and project experience gained over the past 40 years. A PDH certificate is available.

Please register for Utility Process Management for Infrastructure Projects on Sep 10, 2020 3:00 PM EDT at: [Utility Process Management for Infrastructure Projects](#)
