

Rebecca started her career in events on a part time basis back in 1995 at Rogers Centre (formally known as SkyDome). She worked her way through several departments, until 2008 when her hard work, dedication and love for the industry led her to an Event Coordinator position, and within a year was promoted to Event Manager. She worked primarily on concerts and sporting events; however, also worked on smaller scaled events such as private receptions, trade shows and film shoots. On top of her regular duties, she worked closely with the stadiums catering partner to ensure F&B requirements were met during events, was a member of the health and safety committee and provided additional support to baseball operations when needed.

Her path has now led her to the ORCGA and she looks forward to bringing her passion and expertise to our event portfolio.
