

# ASPHALT PAVING IN PRIVATE MARKET APPLICATIONS

A FREE WEBINAR SERIES FOR CIVIL  
AND GEOTECHNICAL ENGINEERS

**June 8 | 2:00 PM EDT**

## CONSTRUCTING COMMERCIAL ASPHALT PAVEMENTS

This webinar will consider different approaches for constructing commercial pavements. Not all commercial paving projects are the same. We will provide some thoughts on equipment, the paving process, and specifying the correct mix for the projects.

### Attendees will be able to:

- 1 Preplan for success
- 2 Select the right equipment for the project
- 3 Specify the correct mix for the project

Speaker

**Thomas J. Clayton, SET**  
Director, Training Member Services

1 .5 hours of PDH credits for professional  
engineers will be provided with training
