

It's time to complete your Field Exam for FREE!

The cost for a PCP Field Exam will not be \$950, not \$700... they will be FREE! SPF companies are coming together with the Sig Hall Memorial Fund to offer a scholarship program to offset the cost for PCP Field Exams.

What is a Field Exam?

The PCP Field Exam is an over the shoulder evaluation which is required for SPF Master Installer Certification. For more information: sprayfoam.org/pcp

If you are interested in pursuing the PCP Master Installer Certification - don't miss this opportunity. Take advantage of the Texas sunshine and warm temperatures, donated equipment and materials, and convenient mock-up to take both insulation and roofing field exams in one day.

IMPORTANT NOTE:

It does not matter which order you meet the certification requirements. You can take the Master Installer Field Exam first and then complete the other requirements at your convenience. You need to successfully complete all requirement in order to become certified.

To register for Field Exams visit sprayfoam.org/sf22attendees or scan the QR code with your app.

Already enrolled in PCP? Great - No Fee New to PCP? One time registration fee required.

Other SPFA PCP Opportunities at SprayFoam 2022

WRITTEN EXAMS

8am - 6pm Monday, February 28 -
Wednesday, March 2

8am - 4pm Thursday, March 3

A testing room is available at SprayFoam 2022 in the San Antonio Convention Center during times listed on the left. To take written exam(s) in San Antonio, register for exam(s) at sprayfoam.org/sf22attendees and then come to the testing room at your convenience. You must enroll in the PCP to take either the written or field exams. All details are available at sprayfoam.org/pcp.

Please note that the testing room closes at times listed above. The last exam of each day will begin no later than 2 hours before room closes (or 4 hours before for Supplier Rep Combined Exam.) For example, you must enter the room by 4pm on Monday, February 28 in order to begin any test allotted 2 hours or you will not be permitted to start an exam.

There are several ways to earn certifications:

1. Select your certification level and take the testing required for that level. For those new to industry, you can earn the SPF Assistant certification(s) first and then work your way up to a higher level by taking the higher level single exam(s) in the future.
2. If you don't hold a PCP certification yet, and are seeking a higher level certification, a 'combined' exam is for you. For example, the installer level is a two part exam and the Project Manager is a four part exam.
3. If you already hold a PCP certification and want a higher level, simply pick the single exam(s) you need to add on. For example, if you are already a Master Installer, but have the experience to be an SPF Project Manager (PM), you only need to successfully complete the PM single exam.

EXAM PREPARATORY COURSES

Do you want a refresher or do you need a little more knowledge before taking your written exams? Sign up for one or more of these classes to help prepare for the PCP Certification Exams.
