

## "Fall Protection for Insulation and Roofing Applications of SPF"

Wednesday March 4, 2015

4:00 - 5:00pm ET

*Joe Bolduc, CSP - Director of Environmental Health and Safety, MASCO Contractor Services, SPFA Safety Committee Chairman*

*The presentation will acknowledge the differences between fall protection regulation in states that are regulated by State Occupational Safety and Health Plans (OSHA) and states regulated by the Federal Occupational Safety and Health Administration. Realizing that most state OSHA plans have adopted Federal OSHA regulations the webinar will explore residential hazards OSHA has identified along with the risk prevention regulations adopted to minimize the risk of serious injury and fatality in America's Construction Workforce.*

*When properly employed these Fall Protection prevention techniques are proven to prevent serious injury and fatality.*

*This webinar will discuss:*

- \* Overview of Regulations*
- \* Fall Protection Options*
- \* Anchorage*
- \* Body Harnesses*
- \* Lanyards*
- \* Training*
- \* Planning*
- \* Guardrails*
- \* Hand Rail*
- \* Observation*

Joe Bolduc is the Director of Environmental, Health and Safety at MASCO Contractor

Services. Prior to his employment in the construction industry he was employed in the Risk Management group of Shaw Flooring a Berkshire Hathaway company in Dalton, GA. Prior to Shaw Joe spent 28 years with SAPPI Fine Papers in Boston, MA. While working at SAPPI Joe held various assignments of increasing responsibility in Operations, Maintenance, Quality, Training, Safety, Workers Compensation, Occupational Medicine, Security, Emergency Response and Risk Management with experience in both site and corporate levels of the organization. Joe was active 25 years in the emergency response activities of his home town serving as a Fire Department Officer - Paramedic/Firefighter.

Joe earned a BS degree in Business Management and MBA from Thomas College in Waterville, ME where he was also an adjunct faculty member. Bolduc is chair of the SPFA Safety Committee and holds Professional Member status in the American Society of Safety Engineers.

SPFA's Foam-It-Right Webinar Series for 2015 is one of the association's many efforts to bring our members and the industry the best, current and effective information to help professionals do their job better every day.

Additional webinars have already been scheduled for you throughout 2015, with more being considered. If you have a topic you'd like SPFA to host a webinar on, please direct requests [here](#).
