

June 20 – 24, 2022

Welcome,

You are invited to join us for an outstanding week of training in San Angelo, Texas, June 20–24, 2022.

This summit offers you a variety of training opportunities across multiple disciplines. To save you time and money, we are offering 378+ hours of training through over 22 classes at one location.

We understand today's economic challenges and know that continuing education is essential for field experts, managers, supervisors, and technicians. We continuously work to ensure our training and curriculum are current and relevant to meet your training needs. We are able to provide these training summits across the state at a reduced cost per class through general revenue received through the state of Texas.

Texas' success can be attributed to the good work of qualified professionals in the field of infrastructure and safety like yourself. This week of professional development assists and equips both entry-level and experienced employees seeking career advancement. You will leave with new skills, new friends, and a new confidence gained from training with the best instructors. Take a moment to review the course offerings and discover how we can help you. Join us this June and I promise it will be a week to remember!

On behalf of our instructors and staff, we hope to see you there.

Sincerely,

Ron Peddy
Division Director
Infrastructure Training & Safety Institute
