

WE NEED YOUR INPUT!

Key Legislative Issues Need Your Voice

The Plumbing-Heating-Cooling Contractors of Texas witnessed some of the most tumultuous decision making at the Texas State Capitol this year.

Plumbers almost lost their statewide licensing due to an unfortunate series of events that happen at the last minute of the Session.

Thanks to Governor Greg Abbott for his Executive Order extending the state licensing of plumbing for two more years!

The Dilemma?

At the close of the 2021 should there be no legislation passed to maintain statewide licensing of plumbing, the plumbers in Texas will lose this valuable designation in their occupations!

How Can YOU help?

Become a member of PHCC Texas and help us make sure that your license status is protected!

We Need Your Voice.....What Happens to Licensing in Texas is of Extreme Importance

Won't you join PHCC stay current of the issues and give us your feedback?
