

On November 17, 2022 VAMA's very own Ronda Puryear with Management Services Corporation (MSC) was installed as the 2023 National Apartment Association (NAA) Chair of the Board of Directors at the 2022 Assembly of Delegates meeting held in Norfolk, Virginia. Ronda joins an elite list of four female leaders installed as Chairman of the NAA Board since 1940.

Ronda has 30 years of real estate experience in property management, marketing and development, and as President of Residential Management for MSC, she oversees the operation of more than 4,000 rental housing units throughout Virginia and North Carolina.

Ronda has been involved with NAA for more than 11 years, having served as a Region I Regional Vice President, NAA Education Institute President, Chair of both the Student Housing Committee and the Conference Committee and a member of the Governance Committee. For more than 15 years, she has served as a leader of the Virginia Apartment Management Association (VAMA) in various volunteer roles including President for two different terms.

She is an active alumni of Virginia Tech and currently serves on the Virginia Tech Residential Property Management Advisory Board. She is also a proud mother of two daughters, two-son in-laws and two beautiful grandchildren.

We are honored to have Ronda be VAMA's first leader to become Chair of NAA and we look forward to her leadership on the national level in 2023.
